PROFILE SUMMARY

As a IT Analyst at Tata Consultancy Services (TCS), I have over three years of experience in designing, developing, and deploying consumer and enterprise applications for Android platforms. I have a strong understanding and implementation knowledge of Android native libraries and services, as well as React Native app development. I am proficient in using Android Jetpack, Kotlin Coroutines, and Dagger software tools, and have created a chat application app using Android Jetpack Compose and Firebase, which is available for download from the link. I am currently adding new features to this app, and I am always eager to learn new technologies and frameworks to enhance my skills and deliver quality products. I hold a Bachelor of Technology degree in Electrical and Electronics Engineering from Guru Gobind Singh Indraprastha University (GGSIPU), and have received multiple awards and certificates from TCS for my service and commitment, continuous feedback, and teaching abilities.
